

PHASE 5 : TESTING -----

Let's login to admin-dashboard/school-setup

Let's configure the teacher attendance policy and also the student attendance policy and save the changes.

STATUS PREVIEW

Now let's come to attendance overview which is in the dashboard of the admin. And you can see that the attendance for today is not yet marked so here it should show blank data

SECTION A — STUDENT ATTENDANCE

CLASS FILTER

Class
All Classes

Section
Select Section

Select a class and section to view detailed student attendance

SECTION B — TEACHER ATTENDANCE

Total Pre... 0

Not Mark... 6

Late Arri... 0

Half Day 0

On Leave 0

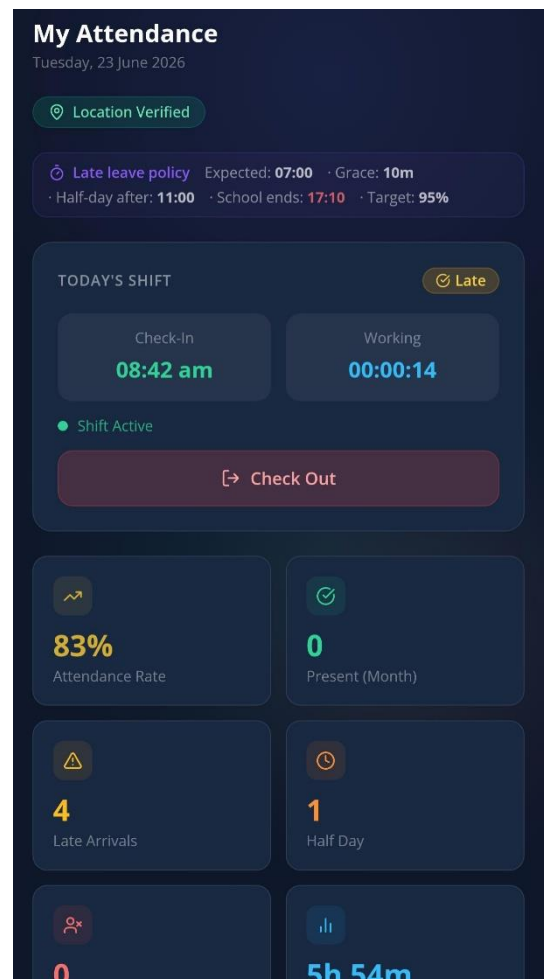

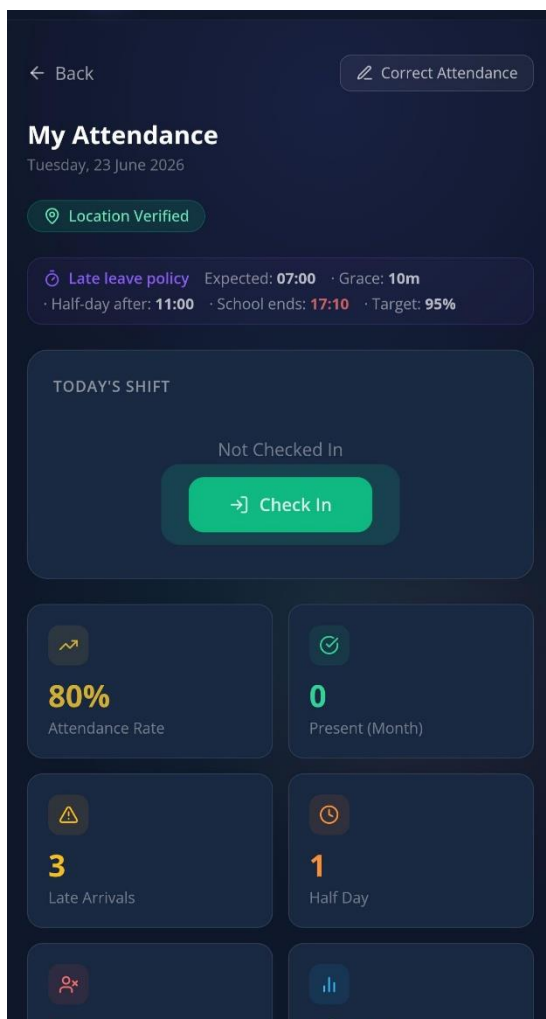

Correctio... 0

Search teacher, department, All Status

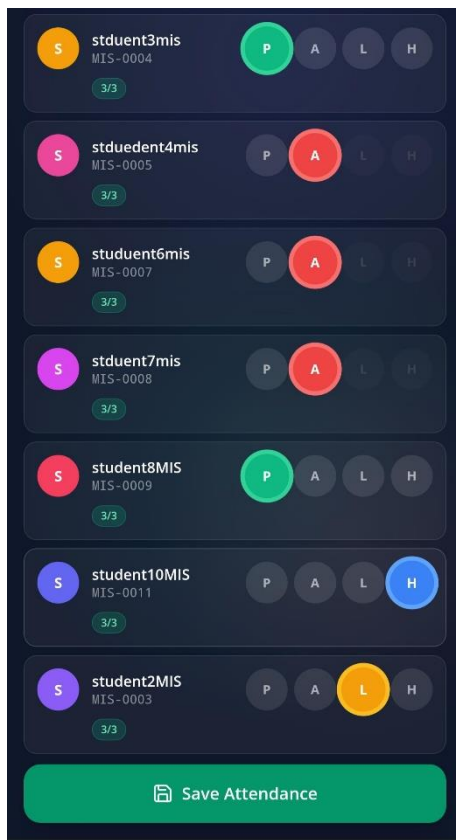

TEACHER NAME	DEPARTMENT	ASSIGNED	STATUS
Teacher 2 MIS			Not Marke
Teacher 3 MIS	Physics , Bengali , literature	3-A 3-B 5-C	Not Marke
Teacher 4 MIS			Not Marke
Teacher 5 MIS			Not Marke
Teacher 1 MIS	Math	6-A	Not Marke
teacher6mis	Math , Physics	2-B 7-A	Not Marke

Now let's login to teacher dashboard go to attendance and let's mark teacher own attendance (My attendance) and also that class attendance (example – 6 a)

Here you can do a self-check in to the portal, and after the school ends a self-check out also.

Now let's mark the attendance for suppose class 6 – A

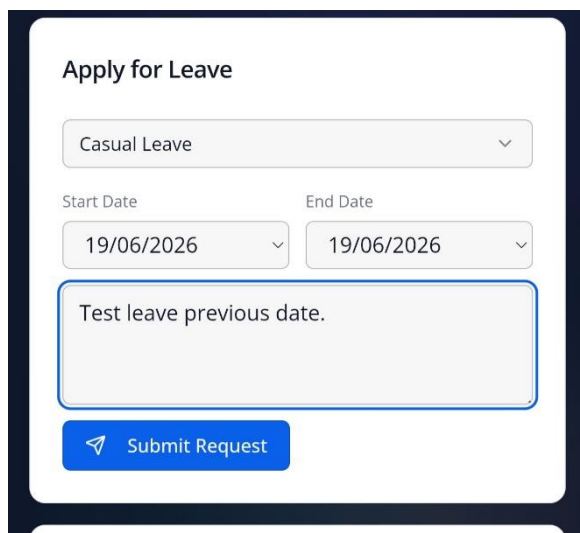

The image shows a mobile application interface for marking attendance. It features a list of seven students, each with a colored circular icon containing a letter 'S'. To the right of each student's name and ID are four buttons labeled 'P', 'A', 'L', and 'H'. The 'P' button is highlighted in green for the first student, and the 'A' button is highlighted in red for the second, third, and fourth students. The 'H' button is highlighted in blue for the sixth student, and the 'L' button is highlighted in yellow for the seventh student. A green 'Save Attendance' button is at the bottom.

Student ID	P	A	L	H
stduent3mis MIS-0004	3/3			
stdudent4mis MIS-0005		3/3		
student6mis MIS-0007		3/3		
stduent7mis MIS-0008		3/3		
student8MIS MIS-0009	3/3			
student10MIS MIS-0011				3/3
student2MIS MIS-0003			3/3	

Save Attendance

after that go to leave section of the teacher dashboard and mark the backdated leave.

The image shows a mobile application interface for applying for leave. It features a form with a dropdown menu for 'Casual Leave', two date pickers for 'Start Date' and 'End Date' (both set to 19/06/2026), a text area for 'Test leave previous date.', and a blue 'Submit Request' button.

Apply for Leave

Casual Leave

Start Date: 19/06/2026 End Date: 19/06/2026

Test leave previous date.

Submit Request

Now it's time to check in the admin dashboard/attendance overview that whether everything is reflecting properly or not.

// Go to approval central of the admin dashboard and just approve the leave of the teacher.

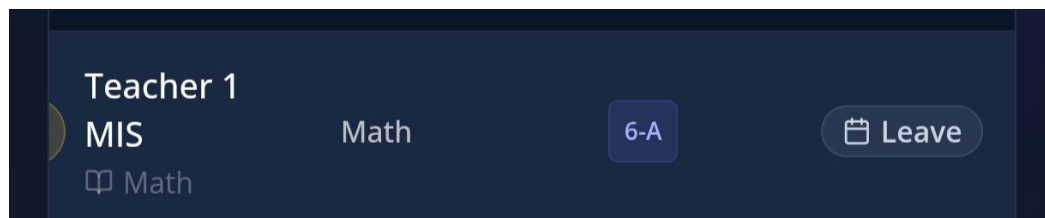

✓ ✓ So you need to login to admin portal go to attendance overview section.

✓ ✓ And check that whether the class 6-a attendance is showing properly or not,

✓ ✓ Also check other class attendance what exactly is it showing (other class attendance it should show as not marked)

✓ ✓ Go to section B – teacher attendance and check the teacher attendance status, check in . Whether everything is reflecting perfectly or not.

On the attendance overview page just change the date to 19/6/2026 and just check the status of the teacher , it should show as leave.

✓ ✓ NEXT thing is, let's login to teacher portal, move on to attendance and “My attendance” at the top right corner there is a button of “correction” now let's do some corrections,

Here the teacher can maximum do a correction of his/her own attendance for a time frame of last 7 days. Let's do some corrections, and you can see that if you change the check in time , check out time , simultaneously the late, half-day, leave, present as per the school timing set up by the admin. It is also changing.

What ever the teacher is doing correction in his attendance it is going to show on the attendance overview of the admin dashboard, how many time correction is done this will also show.

Let's again login to admin-dashboard/attendance overview and go to teacher attendance, as per the teacher attendance here you can see the details like the status, check in, check out, corrections, back dated attendance.

Now lets go to teacher dashboard my attendance..... Full Attendance History.....

Here is the full attendance history of that particular teacher.....

Just check the daily,,,weekly,,, monthly view....

Now let's check the complaint hub of the principal.

At first login to teacher portal, go to Complaint and then lodge complain, see the below two image.

 **Discipline & Resolution Hub**

Complaint Type

Teacher → Student

To Admin (Private)

Students *

2 selected

stduent3mis 6-A

student1MIS 7-A

Search to add more students...

☒ **Also Notify Principal / Admin**
Sends a copy to the Admin Complaint Hub for visibility.

Description *

TEST -- Complaining for the 2 student and also notifying it to admin for the visibility, by clicking on the checkbox.

Upload Evidence (Photo / Screenshot)

Post Principal's Remarks

Mark Resolved

Mark Investigating

Now let's log in to teacher-dashboard/noticeboard and then post this notice to whole school.

The screenshot shows a web interface for posting a notice to students. At the top, there are two tabs: 'From Admin' (selected) and 'Post to Students'. Below the tabs is a form titled 'Post Notice to Students'. The form has three sections: 'Targeting Scope' with four buttons ('Specific Section', 'Entire Class', 'Multi Class', 'Whole School'), 'Notice Type' with a dropdown menu set to 'Urgent', and 'Notice Content *' with a text area containing 'TEST ---- To whole school'. Below the text area is a file upload section showing a file named 'driving_licence.pdf' (145.2 KB) with a red 'X' icon. At the bottom of the form is an orange button labeled '+ Post Urgent Notice'.

Let's login to admin dashboard and let's check the noticeboard of the admin.

Check that the notice posted by the teacher to the whole school must show on the noticeboard of the admin also.

Total Notices

7
Admin Notices

1
Teacher Notices

 **Recent Notices** 7 of 8 notices

 **All Notices (8)**

 **Admin Notices (7)**

Just post the notice for each ::-

whole school, all teachers, all students, class only(specific)

Class+section.

Login to teacher and students dashboard respectively and just check whether the notice posted by the admin are showing as per the logic.

Five audience choices are now explicit in the dropdown:		
Dropdown option	What gets stored in DB	Who sees it
Whole School	targetType = "whole_school"	All students + all teachers
All Teachers	targetType = "teacher"	Teachers only — students never
All Students	targetType = "student"	Students only — teachers' personal feed never
Class (All Sections)	targetType = "class", no section	All students in that class (every section)
Class + Section	targetType = "class", section = "A"	Only students in that exact class-section

Check that suppose you posted a notice for only teachers it should not showing to any students,

Same way if you posted any notice to class 6 A only , this notice must not show to any other classes, it should only show to specific class, section only.
